## ABOUT ME

I'm a dedicated WordPress developer passionate about building custom, high-performing websites that capture attention and drive results. With expertise in Crocoblock for dynamic job portals and advanced plugin development, I create seamless, responsive sites tailored to your brand and vision.

## EXPERIENCE

### Lead Wordpress Developer

TechWave Solutions

January 2020- August 2022

- Developed, customized, and optimized WordPress websites using various themes and plugins, including Elementor and Crocoblock.
- Led projects involving theme and plugin customization to enhance user experience and functionality.
- Fixed complex bugs and implemented SEO best practices to improve website visibility and performance.
- Managed end-to-end project development, from initial client consultation to final deployment, ensuring on-time and within-budget delivery.

### Sr. WordPress Developer

Web Verse BD.

March 2023- Present

- Designed custom eCommerce sites with WooCommerce, focusing on user-friendly layouts, optimized product pages, and secure checkout experiences.
- Developed custom themes and plugins for advanced eCommerce functionality, including product filtering and payment integrations.
- Enhanced site performance and SEO, driving improved visibility and a smooth, responsive shopping experience across devices.
